

Open Frame Racks

For equipment
you need
to access
or change
frequently.

FEATURES

- » A self-aligning design enables a self-squaring installation.
- » Extra deep—spaced 12" or 18" from the wall to provide space to work and space for your larger equipment.
- » Fixed, squared frame design prevents kinking or breaking of fiber optic cables.
- » Black finish.
- » Include a 10-32 threaded rack rail and rack screws.
- » Constructed of 11-gauge steel.
- » Perfect for patch panels, switches, and all your rackmount network devices.

NOTE: Patch panels, cable manager, and cables shown in photo are not included.
